

Professional Summary:

Frontend Developer with **3+ years of experience** in **React.js, Redux, and Typescript, JavaScript** specializing in **scalable web applications, UI/UX design, and performance optimization**. Proven expertise in **building reusable components, integrating Restful APIs, and enhancing user experience** through efficient frontend solutions.

Technical Skills:

- **Languages & Frameworks:** React.js, JavaScript ,Typescript, HTML5, CSS3
- **State Management:** Redux, Context API.
- **UI & Styling:** Material-UI, React Bootstrap
- **Tools & Services:** Restful APIs, Axios, AWS S3, Git, Postman
- **Performance:** React. Memo, Lazy Loading, Code Splitting
- **Additional Technical Knowledge:** Java, Python,Selenium,TestNg,Cucumber,Jenkins, ,CI/CDPipeline

Education Details:

- Master of Science (M.Sc.),YVU, Kadapa-2018

Professional Experience:

Front End Developer
Svarros Technology Pvt.Ltd -Mumbai
March-2022-Present

1.) Project: NFC Business Cards E-Commerce Platform

- Created **50+ reusable components** including Nabars, carousels, and dynamic tables.
- Integrated **Razor pay** for secure payments and JWT-based auth.
- Used **Web NFC API** for real-time card programming.
- **AWS S3** integration for image/media storage.
- Improved page load time with **lazy loading & code splitting**, reducing page load time.
- Stored media files efficiently using **AWS S3**.
- Drag-and-drop editor with live previews for card personalization.
- Integration with **JWT authentication** for checkout flow.
- Featuring dynamic product customization, real-time NFC data writing, and secure checkout

Tech Stack:

Reactjs, redux, Axios, Razor pay, Html, CSS, MaterialUi, RestfulAPI, AWS S3.

2.) Project: Customizing Business Cards

- Built **drag-and-drop UI** with live previews and image uploads..
- Managed design state with **Context API** and persisted via **local Storage**.
- Integrated REST APIs to fetch and save user templates and designs.
- Reduced **cart abandonment by 25%** with seamless preview-to-checkout flow
- Ensured **100% mobile responsiveness**.
- Included real-time editing, image uploads, and seamless cart integration.
- Implemented responsiveness UI Components like forms, modals, previews Canvas.

Tech Stack:

Reactjs, redux, Axios, Razor pay, Html, CSS, MaterialUi, RestfulAPI, AWS S3, Git, Postman, VsCode.

3.) Project: File Management System

- **Drag-and-drop uploads** with progress tracking supports PDFs, images, and docs.
- Tabular view with **sorting name and date and size** and folder hierarchy.
- **Shared files with role-based access** view and edit admin via email invites.
- Tracked shared files with indicators Shared with X users.
- Added **sorting and filtering** and fold hierarchy.
- Built with Material-UI for consistent UX on all devices.

Tech Stack:

Reactjs, redux, Axios, Html, CSS, MaterialUi, Git, Postman, VsCode.

4.) Project: AdminDashboard

- Understanding the Business Requirement of the application and reviewing documentation.
- Integrated **Chart.js** to display business metrics sales, user growth via interactive **graphs bar, pie, line charts**.
- Created **dynamic filters** for time-based analytics.
- Enabled **CSV export** functionality for reporting..
- Developed a **blog module** with rich text editor for admins to write, preview, and publish posts.
- Ensured **100% mobile responsiveness**
- Understanding content management capabilities, **empowering administrators** to monitor business performance and engage users effectively.
- Developed **6+ navigation links** with role-based access control.

Tech Stack:

Reactjs, redux, Chart.js, MaterialUi, VsCode.
